

Congratulations on scheduling your Bridal appointment! We can't wait to help you find the perfect dress! This guide is to maximize your time and your experience with us.

Saturdays Appointments- Saturdays are our most requested appointment days. Following the appointment guide closely allows us to help as many brides as possible.

When to shop- We have many options for all time frames, but we have found 6-12 months before your wedding is an ideal time to purchase your gown. We require a \$25 non-refundable appointment fee that goes towards the purchase of your gown.

Arrive on time- Our appointments are usually back to back and our small boutique can get crowded easily if brides arrive too early to start searching. 5 minutes early is sufficient. Arriving late takes away time you could be searching for the perfect dress.

Guests- We would love for you to bring all the guests you want! However, our boutique is very small and our bridal sitting areas can only accommodate 4-6 guests. We can provide more seating during weekdays if you'd like to bring more than 6 guests.

Selecting Gowns- Guests may help you select gowns, but keep in mind the consultant is familiar with the inventory and can help this process move faster so that you have more time to try on dresses. We ask everyone to browse with gloves to protect the quality of our gowns. Your consultant will help you choose 6-8 gowns to begin your appointment. As the appointment progresses, the consultant will choose more gowns if needed.

Appointment time- Every bride gets an hour and a half to find the perfect gown. With your consultant's help, we have found this is the perfect window of time to search, eliminate, and perfect your look!

What should you bring-

- Bring pictures to help your bridal consultant learn your style.
- Undergarments you plan on wearing that day (ex: spanx, strapless bra)
- Non-traditional shoes you might be considering (ex: cowboy boots, converse)

Children- We love kids! But, the proximity of our store is very small and loud babies or children can be disruptive to other brides.

Other appointments- We have hundreds of styles of bridesmaids to choose from, a great selection of mother of the bride/groom dresses, and a men's tuxedo/suit department. We ask that you schedule a separate appointment for these services on the same day or at a later date.
